OFFICIAL PROJECT TECHNICAL SPECIFICATION

FDNY COIN (FDNY)

Honoring New York's Bravest • Powered by Community • Built for Support

Abstract: *FDNY Coin is the native token of the New York's Bravest community. Established to honor the Fire Department of the City of New York, it underpins a tribute ecosystem dedicated to duty, remembrance, and brotherhood.*

1. Executive Summary & Vision

The Fire Department of the City of New York (FDNY) represents a legacy of courage, selflessness, and sacrifice. FDNY Coin translates this heritage into a decentralized financial and utility framework. The token serves both as a digital badge of respect and as an operational utility asset supporting initiatives that commemorate first responders.

2. Core Ecosystem Utility

FDNY Coin is designed with practical real-world integration, establishing clear token flow and sustainability across community engagements:

Official Store Integration

Token holders can utilize FDNY Coin for merchandise purchases in the official store, unlocking exclusive commemorative items and apparel.

Event Ticketing

Provides direct access to obtain tickets for FDNY community galas, memorial ceremonies, and firefighter brotherhood events.

Tribute Fund Supporting

A designated percentage of transaction fees directly bolsters initiatives commemorating the service and sacrifice of fallen heroes.

Community Governance

Empowers holders to participate in voting on community-driven charity allocations and historical preservation efforts.

3. Architecture & Blockchain Specification

Built on high-throughput, secure blockchain infrastructure, FDNY Coin ensures minimal transaction costs, rapid finality, and robust smart contract security verified through independent third-party audits prior to launch.

4. Tokenomics & Distribution Architecture

Total Fixed Supply: **1,000,000,000 FDNY Coin**. Allocation is designed for sustainable market growth, liquidity, and long-term ecosystem stability.

Allocation Category	Percentage	Token Volume	Vesting & Lockup Terms
